September 26, 2024

Kentucky Workers' Compensation Funding Commission Board of Directors 42 Mill Creek Park Frankfort, KY 40601

Dear Board of Directors:

Deloitte Consulting LLP is pleased to submit our actuarial report regarding our analysis of the Special Fund ("SF") including the Uninsured Employers' Fund ("UEF") unpaid loss and loss adjustment expenses ("LAE"), future estimates of revenue and expenses, and required assessment rates to fully fund the SF by December 31, 2029.

Rod Morris is a member of the Casualty Actuarial Society and the American Academy of Actuaries and meets the qualification standards to issue this actuarial report.

We have enjoyed working with the Kentucky Workers' Compensation Funding Commission ("KWCFC") on this analysis. If you have any questions after reviewing this report, please do not hesitate to contact us.

Sincerely,

Rod Morris, FCAS, FSA, MAAA Specialist Leader

Specialist Leader Deloitte Consulting LLP (213) 688-3374

I. OVERVIEW

Deloitte Consulting LLP ("Deloitte Consulting", "us", "we" or "our") was retained by the Kentucky Workers' Compensation Funding Commission ("KWCFC" or "the Commission") to provide an independent analysis of the unpaid loss and loss adjustment expenses (LAE) of the Special Fund (SF) and the Uninsured Employers' Fund (UEF) administered by the Commission. The analysis was performed as of June 30, 2024 and includes an estimate of the future financial results through December 31, 2029 and the determination of the required assessment rates. This report has been created to support and document our independent analysis.

This report discusses our approach and presents the results of our June 30, 2024 review. Our unpaid claim estimates are presented on an undiscounted basis and discounted basis using the Commission's selected discount rate of 3.00%. The basis of the unpaid claim estimates considered in our analysis was selected to meet the requirements for US General Accounting Standards Board (GASB). All information presented in this report is as of June 30, 2024 and displayed in millions of US dollars unless otherwise stated.

Our analysis is organized on a fiscal-accident year basis. Fiscal years run from July 1 of a given year to June 30 of a subsequent year (e.g., fiscal year 2024 runs from 7/1/23 to 6/30/24).

PROGRAM BACKGROUND

The KWCFC was created by the 1987 Extraordinary Session of the Kentucky General Assembly to control the funds used to pay claims awarded through the SF and the UEF, and to finance administrative costs associated with the Commonwealth's workers' compensation program and with specific Labor Department programs. The KWCFC has engaged Conning to manage the investments within the funds.

Prior to the December 1996 Extraordinary Session of the General Assembly, the Special Fund served as Kentucky's second injury fund. It paid a portion of certain occupational injury claims as well as occupational disease claims. The outstanding liability of the SF is financed through assessments on employers' workers' compensation insurance premiums and imputed premiums for self-insured employers and groups. The SF has no liability for claims if the date of injury or last exposure occurred after December 12, 1996.

The UEF pays workers' compensation claims when the employer has failed to secure payment for statutory workers' compensation claims. The UEF is funded by the SF. The liability held for the UEF is based on the date that the UEF becomes responsible for benefits coinciding with the original date of injury of the underlying claim.

Benefit payments made by the funds are often reduced for any applicable attorney fees. The attorney fees are typically recouped in one of three ways: 1) paid out of pocket by the claimant; 2) a hole in the benefit stream prior to the claimant reaching life expectancy; or 3) installments deducted from bi-weekly benefit payments.

During 2017, House Bill 377 was passed, which closed the Coal Workers' Pneumoconiosis Fund (CWPF) effective July 1, 2017 to any CWPF claims filed after June 30, 2017. At this time, the assets and liabilities of the CWPF were transferred through a loss portfolio transfer agreement to Kentucky Employers' Mutual Insurance (KEMI). Therefore, this analysis does not include any liabilities associated with the CWPF.

During 2018, House Bill 2 was passed that, among other things, extended the time at which income benefits will terminate. Previously, since December 12, 1996, benefits were terminated based on Social Security eligibility, but under this bill, income benefits terminate either when the employee reaches age 70, or four years after the injury or last exposure, whichever occurs last. The bill states that the law applies retroactively to claims for injuries or last exposure on or after December 12, 1996, and that are not yet final, are on appeal, or which could still be appealed. However, currently under appeal is whether or not future dependent benefits after the death of an injured worker constitute a new claim, thus being subject to the new age cutoff under House Bill 2.

Funding the Special Fund

The SF has historically been funded by a surcharge on workers' compensation premiums in the Commonwealth and an equivalent assessment against imputed workers' compensation premiums for self-insured employers and groups. The historical surcharges (or "assessment rates") including the proposed rate for calendar year 2025 are listed below:

Calendar Year	Assessment Rates
2001	9.00%
2002-2004	11.50%
2005	9.00%
2006-2011	6.50%
2012-2014	6.28%
2015	6.17%

2016	5.51%
2017-2018	6.29%
2019-2020	6.41%
2021	7.02%
2022-2023	6.94%
2024	6.53%
2025	5.53%

The rates of assessment are established annually at levels which will produce enough revenue to amortize on a "level basis" the unfunded liability of the SF including any UEF claims with incurred dates of December 31, 2029 and prior. Assessments will be applied through the mandated sunset date of December 31, 2029.

Demographic Information of the Special Fund

As of June 30, 2024, there are a total of 3,840 open claims in the SF. The average age of claimants in the SF is 74 years old. Below is a distribution of open claimants by age in the SF.

Of the 3,840 open claims as of June 30, 2024 in the SF, 3,565 have an "Awarded" status, 178 have a "Pending" status, 74 have a "Suspended" status, and 23 have an "Unknown" status.

Pending status claims include:

- Claims that have never started payments
- Claims in attorney fee recoupment for future post life expectancy schedules
- Future tier down schedules (reduction of awards between the ages of 65 and 70)
- Future un-reduced pay schedules for attorney fee weekly reduction post life expectancy

• Weekly rate changes due to agreed opinion and awards.

Suspended status claims include:

- Potential investigation
- Can't find claimant \ verification of still living
- Potential widow\beneficiary claim after death notification.

Unknown Status Claims:

• There are a total of 23 claims with an unknown status and we have treated these as awarded claims

REPORT SECTIONS

This report is comprised of the following sections:

- Overview provides a general introduction and overview of the engagement;
- Scope describes the work and reports that Deloitte Consulting has performed and produced;
- Conditions and Limitations details the limitations that apply to this engagement's work product, report and results;
- Summary of Results provides our estimates of the unpaid claims and assessment rates including
 relevant comments that discuss the areas of note observed throughout our analysis;
- Actuarial Methodology describes the approach underlying the results of our estimates of unpaid claims;
- Disclosures discusses certain disclosures required by Actuarial Standards pertaining to the estimation of property/casualty unpaid claims;
- Exhibits.

II. SCOPE

Deloitte Consulting serves as an independent consultant to KWCFC under an agreement between the KWCFC and Deloitte Consulting. Our role under such engagement is to provide an independent analysis of the unpaid loss and LAE of the SF and the UEF administered by the Commission as of June 30, 2024, estimate the future financial results and assessment rates through December 31, 2029, and provide a report supporting the conclusions. A summary of findings of our analysis will be presented to the Commission's Board of Directors on September 25, 2024.

The estimates included in this report include loss and LAE. The LAE portion of the estimates consist of two separate amounts. These two items are:

- Allocated loss adjustment expenses (ALAE), which are expenses that generally can be assigned to particular claims and are included with loss data
- Unallocated loss adjustment expenses (ULAE), which are overhead or claims administrative expenses and also referred to as settlement expenses.

The purpose of this review includes the following items:

- Provide an estimate of the unpaid claims of the SF, which includes the UEF, as of June 30, 2024.
 The estimate of unpaid claims is provided on an undiscounted and discounted basis to reflect the time value of money
- Based on the results of the estimate of unpaid claims and projections of future revenue and expenses, provide recommendations regarding adjustments to the percentage surcharge on premiums to be assessed by the Commission to each provider of workers' compensation coverage, self-insureds, and self-insured groups in the Commonwealth of Kentucky (i.e. assessment rates)
- Based on the above recommendations, provide projected future financial results, including revenue and expense projections, through December 31, 2029.

Rod Morris is a Member of the American Academy of Actuaries (MAAA) and a Fellow of the Casualty Actuarial Society (FCAS). Rod Morris prepared and supervised the various analyses contained in this report that supports the findings expressed in our opinions, conclusions and observations. These organizations have professional standards that, among other provisions, require an actuary perform only

assignments for which they are qualified. Rod Morris has met the qualification standards as promulgated by the American Academy of Actuaries to render these opinions and have attested compliance with the Casualty Actuarial Society's Continuing Education Policy as of December 31, 2023 to perform services in 2024. Kim Mitchell, Managing Director, performed a peer review of the work performed and confirmed actuarial standards of practice have been followed as promulgated by the Actuarial Standards Board.

The estimates contained in this report provide for loss and LAE and do not include any provisions for other expenses such as:

- Brokerage or reinsurance costs including commissions
- Risk management fees other than overhead included in the LAE
- Loss control fees
- Legal fees (other than claim defense costs)
- Actuarial fees
- Other fees
- Excess insurance premiums.

Our estimates of unpaid claims provided in this report are intended to represent an actuarial central estimate. "Actuarial central estimate" is defined by actuarial literature as "an estimate that represents an expected value over the range of reasonably possible outcomes."

The services we performed in this actuarial analysis do not constitute an audit, review, examination, or other form of attestation as those terms are defined by the American Institute of Certified Public Accountants (AICPA). Any use of the word "review" within this presentation should be interpreted in the common use of that term, and not the definition of "review" promulgated by the AICPA.

Deloitte Consulting affirms, to the best of our knowledge, that it presently has no interest, direct or indirect, which would conflict with the performance of services for this analysis.

III. CONDITIONS AND LIMITATIONS

Due to the inherent uncertainty in projecting the ultimate costs of claims, no assurance can be offered that any particular estimate of ultimate loss and LAE or unpaid claims will be adequate. We believe, however, that the actuarial techniques and assumptions used in our analysis are reasonable.

In estimating unpaid loss and LAE, it is necessary to project the future payments of unpaid loss and LAE. It is certain that actual future payments of loss and LAE will not develop exactly as projected by any actuarial technique and may, in fact, vary significantly from the projections. No warranty is expressed or implied that such variance will not occur.

Further, our projections make no provision for the broadening of coverage by legislative action or judicial interpretation or for extraordinary future emergence of new classes of losses or types of losses not sufficiently represented in the SF's or UEF's historical database or which are not yet quantifiable.

DISTRIBUTION AND USE

This analysis has been prepared solely for the internal use of the KWCFC and as documentation supporting our estimates of unpaid claims as of June 30, 2024 and future projections of revenue and expenses. Limited distribution of this report is permitted to the KWCFC auditors to support their audit process, provided that it is made available on a confidential basis and that any further distribution by auditors to third parties is prohibited without Deloitte Consulting's prior written consent.

Any other distribution of this report is not permitted without the prior written consent of Deloitte Consulting. The supporting data, analysis and tables contained in our exhibits are provided to clearly document the assumptions which support the results stated herein and are integral parts of this study. It is our intention that this report be used in its entirety, as a whole, and not segmented for other purposes.

Deloitte Consulting shall have no liability, regardless of form, to any person or entity other than the KWCFC for any action taken or omitted to be taken by such parties in respect of this report. Third parties should recognize that the furnishing of this report is not a substitute for their own due diligence and may not place any reliance on this report or data contained herein that would result in the creation of any duty or liability by Deloitte Consulting to any third party.

DATA RELIANCE

Deloitte Consulting has relied upon data provided by the Commission for this review. A specific audit to verify the accuracy or completeness of the data is beyond the scope of this engagement. While we have reviewed the data with regard to its reasonableness and consistency for our review, we have relied on such data without audit or verification and our conclusions are based on the assumption that it is accurate and complete. If the underlying information provided is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

IV. SUMMARY OF RESULTS

ESTIMATE OF UNPAID CLAIMS

Based on our analysis, we estimate the unpaid claims for the SF as of June 30, 2024 to be \$423.5 million on an undiscounted basis and \$322.6 million on a discounted basis to reflect the time value of money.

Based on our analysis, we estimate the unpaid claims for the UEF as of June 30, 2024 to be \$91.3 million on an undiscounted basis and \$70.8 million on a discounted basis to reflect the time value of money.

We have estimated the discounted unpaid claims using the Commission's selected annual interest rate of 3.00%. We note that the selected 3.00% annual interest is consistent with the interest rate selected last year.

For the UEF, claims incurred during fiscal year 2024 (i.e. claims with accident dates from July 1, 2023 to June 30, 2024) are estimated to be \$7.1 million

The following table summarizes our estimate of unpaid claims as of June 30, 2024 and includes a split of the liability into its short-term and long-term portions. The short-term liability represents the portion of the unpaid claims that is expected to be paid within the next twelve months.

Special Fund (including the Uninsured Employers' Fund) @6/30/24

Special Fund										
Undiscounted	\$412.3	\$11.1		\$28.3	\$0.8		\$384.0	\$10.4		
Discounted @3.00%	\$314.1	\$8.5	\$322.6	\$27.9	\$0.8	\$ \$28.7	\$286.2	\$7.7	\$293.9	
Uninsured Employers' Fund Undiscounted Discounted @3.00%	\$86.1 \$66.8	\$5.2 \$4.0		\$8.3 \$8.2	\$0.5 \$0.5		\$77.8 \$58.6	\$4.7 \$3.5		
Combined Funds Undiscounted Discounted @3.00%	\$498.4 \$380.9	\$16.3 \$12.5		\$36.7 \$36.1	\$1.3 \$1.2		\$461.8 \$344.8	\$15.0 \$11.2		
UEF Claims Incurred - FY2022	\$7.1									

The estimate of unpaid claims for the SF is comprised of settlement expenses (i.e. LAE) which include any costs associated with the closure of these claims including the specific cost associated with the settlement of individual claims and general claim settlement expenses that cannot be allocated to a particular claim.

The unpaid loss and LAE estimates provided above for the UEF make provisions for:

- Incurred but not reported claims (IBNR); claims not yet reported and not recorded in the loss system, which are expected to arise from accidents that have already occurred, also known as "pure IBNR"
- "Pipeline" claims; claims known but not yet recorded in the loss system
- Reopened claims; future reopened claims which should be coded to the year the claim was originally incurred.

PROPOSED FUTURE ASSESSMENT RATES

The SF "Fund Balance" at any given time is the amount of assets in the fund less the liabilities of the fund. Based on estimates of the unpaid claims, the SF Fund Balance is in a negative position of \$36.6 million as of June 30, 2024. In other words, the assets as of June 30, 2024 are \$36.6 million lower than the liabilities.

We note that the reported capital as stated in the SF financial statements as of June 30, 2024 totals \$323.2 million. There are two adjustments that need to be made to the financial statement reported capital to calculate the SF Fund Balance. These two items are as follows:

- 1. The reported capital needs to be reduced by the estimate of unpaid claims of the SF and UEF which are not included in the financial statement reported capital. As shown above, this amount totals \$393.4 million on a discounted basis as of June 30, 2024
- 2. The fixed income assets need to be restated on a book value basis versus a market value basis. Accounting principles require fixed income assets to be reported on a market value basis but since the SF generally plans to hold these assets to maturity, the book value of the assets would be more appropriate when considering the Fund Balance (or Reported Capital). The current book value is \$33.6 million higher than the current market value.

As part of our analysis, we have estimated future SF expenses and revenue through December 31, 2029. The purpose of this analysis is to review the viability of future assessment rates to meet the statutory

requirement that the SF becomes fully funded (i.e. assets > liabilities) by December 31, 2029 and remain fully funded. Based on our financial projections and current assumptions, we conclude that an assessment rate of 5.526% (rounded to 5.53%) for calendar year 2025, which is lower than the 6.53% used for calendar year 2024, is reasonable and will result in the SF becoming fully funded by December 31, 2029 with a fund balance of \$0.2 million.

Over the past year, the financial status of the funds has been better than expected as investment returns continue to be higher than the 3.0% assumed in the discounted liability. In addition, workers' compensation premiums within the Commonwealth remain high as a result of higher wages and favorable economics. The higher workers' compensation premiums have produces higher assessments (i.e. revenue) for the funds. In additional administrative expenses have been lower than expected. We discussed these items in more detail below. The improved financial status of the funds has allowed for a lowering of the assessment rate going forward.

The effect on the Fund balance due to the volatility of future workers' compensation premium assumptions and alternative mortality assumptions is discussed further in the "Comments and Recommendations" section below. Based on this alternative assumption analysis and the range of indicated assessment rates using these alternative assumptions, we conclude that an assessment rate of 5.53% is reasonable.

PROJECTED FUTURE FINANCIAL RESULTS

In order to project future financial results, estimates of future revenue and expenses are required. Future revenue sources mainly include premium revenues from assessments on workers' compensation premiums and investment income on invested assets within the fund. Future expenses mostly include claim payments and other administrative expenses.

Below is a reconciliation between the balance sheet as reported in the SF financials statements to the beginning balance sheet amounts used in this analysis.

Special Fund Financial Statements @6/30/24

Amounts in Millions

	SF
	Balance
	Sheet
<u>Assets</u>	
(1) As Reported	\$336,845,460
(2) Adjustment: Fixed Income Market to Book Value	\$33,694,548
(3) Adjusted Asset Balance = (1) + (2)	\$370,540,008
<u>Liabilities</u>	
(4) As Reported	\$13,685,436
(5) Adjustment: SF and UEF Unpaid Claims	\$393,413,168
(6) Adjusted Liability Balance = (4) + (5)	\$407,098,604
Reported Capital	
(7) As Reported = (1) - (4)	\$323,160,024
(8) Adjusted Fund Balance = (3) - (6)	(\$36,558,597)
	,

As mentioned previously and shown above, the fund balance as of June 30, 2024 is in a negative position of \$36.6 million.

The asset balance as of June 30, 2024 is \$370.5 million which includes the \$336.8 million of assets included in the SF financials statements plus \$33.7 million to restate the fixed income assets from a market value basis to a book value basis. The liability balance as of June 30, 2024 is \$407.1 million which is our estimate of the unpaid claims as of June 30, 2024 for the SF and UEF of \$393.4 million plus \$13.7 million of non-claim liabilities included in the SF financial statement as of June 30, 2024. The fund's estimated future assets as of a certain date (e.g. June 30, 2025) equals the previous June 30 asset balance (e.g. June 30, 2024) adjusted for the difference between projected revenue and expenses within that fiscal year (e.g. fiscal year 2025). The fund balance as of a certain date equals the asset balance at that date less the liability balance as of that date, the majority of which represents our estimate of unpaid claims.

Below is a summary of the historical financial statement balances (i.e. asset balance, liability balance, and fund balance) from June 30,2019 through June 20, 2024 and projected financial statement balances through December 31, 2029.

As can be seen, the fund balance has improved from a deficiency of \$262.5 million as of June 30, 2019 to a deficiency of \$36.6 million as of June 30, 2024. Under current assumptions and an assessment rate of 5.53%, the SF becomes fully funded with a positive fund balance of \$0.2 million as of December 31, 2029. Indicated assessment rates and future fund balances as of December 31, 2029 under alternative assumptions is discussed in the section below.

FY 2024 ACTUAL VERSUS EXPECTED REVENUE AND EXPENSES

During fiscal year 2024, there were certain changes that affect the financial balance of the SF. Below is a review of actual revenue and expenses during the past fiscal year compared to what we estimated in our June 30, 2023 analysis. Amounts are in US dollars.

FINANCIAL STATEMENT ITEM	DELOITTE EXPECTED IN 06/30/23 ANALYSIS	ACTUAL DURING FY2024	EFFECT ON SOLVENCY OF FUND
(1)	(2)	(3)	(4)
REVENUE ITEMS			
PREMIUM REVENUE	62,565,475	71,296,148	8,730,674
ASSESSMENT PENALTY AND INTEREST	833,660	874,856	41,196
AUDIT REIMBURSEMENT	290,057	419,704	129,647
TOTAL REVENUE	63,689,192	72,590,709	8,901,516
EXPENSE ITEMS			
SPECIAL FUND CLAIM PAYMENTS	31,422,496	30,317,200	1,105,296
UEF CLAIM PAYMENTS	7,143,013	5,958,500	1,184,513
ADMINISTRATIVE EXPENSES	39,026,139	33,859,510	5,166,629
TOTAL EXPENSES	77,591,648	70,135,210	7,456,438
CHANGE IN BALANCE SHEET ITEMS			
SPECIAL FUND UNPAID CLAIM LIABILITY	(30,404,668)	(30,123,147)	(281,521)
UEF FUND UNPAID CLAIM LIABILITY	1,533,772	7,855,065	(6,321,294)
TOTAL CHANGE	(28,870,896)	(22,268,082)	(6,602,814)
INVESTMENTS	13,374,228	27,410,216	14,035,988
TOTAL EFFECT ON ANTICIPATED SOLVENCY OF FUND			23,791,128

Actual non-investment revenue (mostly premium assessments) earned by the SF during fiscal year 2024 was \$8.9 million more than expected as a result wages and thus workers' compensation premiums being greater than expected over the past year.

Actual expenses incurred by the SF during fiscal year 2024 were approximately \$7.5 million lower than expected which was mostly related to the administrative expenses being much lower than expected.

Each year, there is an expectation that the estimate of unpaid claims drops as claimants die and claims close for the SF. In our analysis performed last year (e.g. as of June 30, 2024), we expected the estimate of unpaid claims to decline by approximately \$30.4 million. In our current analysis, the estimate of unpaid claims declined by \$30.1 million (\$0.3 million less than expected) which is close to the expectation. The UEF increased \$6.3 million more than expected due to adjustment in the reserves of one large claim.

Investment return was also \$14.0 million better than expected.

The combination of these items helped improved the solvency of the SF by approximately \$23.8 million over the past fiscal year.

COMMENTS AND RECOMMENDATIONS

Alternative Assumptions

As discussed in the prior section, the current proposed assessment rate of 5.53% would fully fund the SF as of December 31, 2029. However, the assumptions selected in our analysis may not materialize. Therefore, we have performed an analysis estimating the indicated assessment rate to fully fund the SF by December 31, 2029 under alternative assumptions of the most critical and volatile assumptions in our analysis. We have also estimated the SF fund balance as of December 31, 2029 assuming the proposed 5.53% assessment rate under these alternative assumptions. The two most critical and volatile assumptions in our analysis are the selected mortality assumption and the projection of future workers' compensation premiums through December 31, 2029. These assumptions are discussed below.

Mortality Assumption

The future claim payments of the SF is dependent on the future mortality experience of the 3,840 remaining claims with an open status. Therefore, the selection of a life table that estimates the mortality experience is critical. Prior to June 30, 2022 analysis, the SF relied upon the 1994 GAM Table adjusted to a 2021 level which is a general population life table. Other general population tables considered in our selection of a life table are the 1983 Group Annuity Morality life table, and the 1980 decennial countrywide table.

The remaining open claims of the SF mostly includes individuals who are permanently disabled and are in poorer health than the general population. It is important to consider other life tables based on studies of disabled individuals. Therefore, we considered the 1987 Commissioner's Group Disability Table and the 2005 Group Term Life Waiver Table which are tables that are typically used for disabled workers. We have also considered the 2007 US Life Table which is a table historically used by the National Council on Compensation Insurance (NCCI) annuity calculations.

In order to consider which life table to select in this analysis, we performed a retrospective test on a cohort of 5,433 open SF claims as of June 30, 2019 and then tracked the mortality experience during fiscal year 2020, fiscal year 2021, and fiscal year 2022. We also tracked the mortality experience during fiscal year 2023 for the open claims as of June 30, 2022 and the mortality experience during fiscal year 2024 for the open claims as of June 30, 2023. We compared the actual experience of this cohort and prior

year open claims to the expected mortality experience of each of these life tables. The table below shows the result of this retrospective test.

As can be seen, the 2005 Group Term Life Waiver Study Table has tracked well to actual mortality over the past five fiscal years. We also note that the general population tables, as expected, show much better mortality experience than what has actually occurred over the past five years. We expect that results going forward will be volatile given the low number of remaining open claims in the fund.

In discussions with the commission and after considering the results of this analysis, we have selected the 2007 US Life (NCCI Table) to estimate the liability for unpaid claims, to estimate the indicated assessment rate, and project the future financial statements. The results of this table are come in somewhere in between the results of the actuarial table used prior to the June 30, 2022 study and the 2005 Group Term Life Waiver Table. If the 2005 Group Term Life Waiver Table continues to perform well in the future, we will eventually change our assumption to this table. If the 2005 Group Term Life Waiver Table was selected, the SF estimate liability would decline by \$34.8 million.

We have also shown the results of the indicated assessment rate and projected future financial statements assuming the 2005 Group Term Life Waiver Table and a the 1994 GAM Table adjusted to 2021 which is a general population life table.

Future Workers' Compensation Premium Assumptions

The majority of the SF non-investment future revenue comes from assessments applied to workers' compensation insurance premiums and on imputed premiums of self-insured entities and self-insured groups. Current statute allows for the application of assessments on these premiums through December 31, 2029. Therefore, the indicated assessment rate is dependent on the projection of future workers' compensation premiums through December 31, 2029.

Historical premiums by calendar year were provided to us by the Commission. These premiums are a function of:

- Workers' wages
- Filed loss rates by the National Council of Compensation Insurance (NCCI) and estimated changes to these rates due to inflation, benefit level changes, and other trends in the industry
- Expense and profit loads of insurers
- Competitive forces within the market that cause premium variations from the NCCI rates.

This estimate of future workers' compensation premiums has been fairly difficult in recent history with the onset of the pandemic in 2020 and continuing through 2021. For example, workers' compensation premiums dropped from \$1,095 million in calendar year 2019 to \$913 million in calendar year 2020 (a drop of \$182 million in one year) before calendar year 2021 premiums increasing to \$935 million. Actual premiums for calendar year 2023 were \$1,008 million which is \$55 million higher than the prior expected workers' compensation premium that we relied upon last year. The first half of calendar year 2024 is trending 1.1% lower than the first half of calendar year 2023. This trend has occurred even though the NCCI approved a 10.4% reduction in loss costs beginning January 1, 2023 and an additional 6.8% reduction in loss costs beginning January 1, 2024. The NCCI has also proposed an additional reduction of 8.5% beginning January 1, 2025. These NCCI reductions should have an effect on the 2024 and future workers' compensation premiums.

In discussions with the commission, we have considered three scenarios of future workers' compensation premiums through December 31, 2029. On the graph below, we compare historical premiums to the results of the three estimated scenarios of future premiums.

Below is a description of the three different premium scenarios shown above:

- 1. **Expected Projection**: Premiums for the 1st Half of 2024 are running 1.1% lower than the 1st Half of 2023. NCCI approved a 10.4% reduction in loss costs beginning on January 1, 2023, an additional 6.8% reduction in loss costs beginning on January 1, 2024, and has proposed an additional 8.5% beginning January 1, 2025. These reductions will have an effect on the 2024 premiums. Long term loss costs estimated to drop -1.5% while wages are assumed to increase 3.5% annually.
- 2. **Lower Projection**: Assumes a retraction in premium in CY 2024 and a fairly stable premium going forward.
- 3. **Higher Projection:** Assumes premiums where wages continues to grow in CY 2024 with a steady growth thereafter.

Each of the scenarios include the same assumption for future loss cost trends and wage growth. Calendar year 2025 assumes a -2.3% decrease in loss costs and wage increase of 4.4%. Calendar year 2026 and subsequent assumes a -1.5% decrease in loss costs annually and wage increases of 3.5% annually.

The appropriate future tax assessment rate is applied to our estimate of calendar year premiums to derive the future premium revenue by calendar year. These calendar year premium revenue amounts are then adjusted to a fiscal year basis.

In discussions with the commission, we have selected premium scenario 1 ("Expected Projection") to estimate the indicated assessment rate and project the future financial statements. We have also shown

the results of the indicated assessment rate and projected future financial statements assuming premium scenarios 2 and 3 above.

Results of Varying Alternative Assumptions

In order to show the significance of the mortality assumption and future workers' compensation premium assumption, we have performed an analysis estimating the indicated assessment rate and projected future financial statements under the alternative assumptions discussed above. The tables below indicate the results of varying these assumptions

Indicated Assessment Rates Using Alternative Assumption Scenarios

	Assumption: Future V	Vorkers' Compensati	ion Premium Scenario
Assumption: Mortality Scenario	Higher Bound	Expected	Lower Bound
2005 Group Term Life Waiver Table	4.38%	4.75%	5.16%
2007 US Life (NCCI Table)	5.10%	5.526%	6.00%
1994 GAM Table adjusted to 2021	5.58%	6.05%	6.56%

We note that varying each of the assumptions produces indicated assessment rates that vary from 4.38% to 6.56%. Using our selected scenario of the 2007 US Life Table and the premium scenario "Expected", produces in indicated rate of 5.526% (rounded to 5.53%).

The table below assumes the proposed assessment rate of 5.53% and estimates the fund balance as of December 31, 2029 under the various assumption scenarios.

Fund Balance as of December 31, 2029 Assuming a 2025-2029 Assessment Rate of 5.53%

	I			
Assumption: Mortality Scenario	Higher Bound	Expected	Lower Bound	
2005 Group Term Life Waiver Table	\$75.7	\$47.3	\$20.8	
2007 US Life (NCCI Table)	\$28.6	\$0.2	(\$26.3)	
1994 GAM Table adjusted to 2021	(\$3.2)	(\$31.5)	(\$58.0)	

Assumption: Future Workers' Compensation Premium Scenario

We note that the proposed rate of 5.53% would indicate that the SF becomes fully funded with a fund balance of \$0.2 million using our selected assumptions of the 2007 US Life mortality table with the Expected future premium assumption. In addition, the proposed assessment rate of 5.53% is within the range of these scenarios. Therefore, we conclude that the proposed assessment rate is reasonable.

The results highlight the volatility of the assumptions that we have made and the risk if the assumptions that are used in the current analysis do not materialize.

UEF Third Party Administrator

The data available for the UEF claims is limited. Our experience with other uninsured employers' funds is that a third party administrator (TPA) is hired to handle the workers' compensation claims. A TPA is able to maintain claim level detail and evaluation detail that actuaries typically use to estimate unpaid workers' compensation claims. A TPA also provides an unpaid amount on individual claims (i.e. case reserve) that allows an actuary to provide more s accurate estimate of the UEF costs.

V. ACTUARIAL METHODOLOGY

DATA

The following data utilized in our analysis was provided by the Commission in electronic format.

- I. Microsoft Access database of Special Fund Claims
 - A. The database includes all claims and the payment streams for each claim. Tables in the database include the following information
 - 1. Claim Number
 - 2. Claim Status (Awarded, Pending, Suspended)
 - 3. Injury Date
 - 4. Payment Type (Billing, Reimbursement, Direct Pay)
 - 5. Fund Percent of Liability
 - 6. Date of Birth
 - 7. Gender
 - 8. Weekly Benefit Rate
 - 9. Payment Start Date
 - 10. Payment End Date
 - 11. Marital Status
 - 12. Run Type (Bi-Weekly, On-Demand)
 - 13. Death Date.
 - B. Filename: "Export_for_KWCFC_301901JUN24.accdb"
 - C. Data assumptions We have made the following assumptions regarding the access database
 - 1. Marital Status: If labeled as married, blank, or unknown, we have assumed that the marital status is married. If the marital status is married, we have assumed that the spouse of a male claimant is three years younger than the claimant and the spouse of a female claimant is three years older than the claimant
 - 2. Run Type: If it is labeled as "On-Demand" we have not included in our analysis as we have assumed that these are one time payments or payment corrections
 - 3. Payment Type / Fund Percent of Liability: If the payment type is "Billing", we have assumed that the SF will pay the full weekly benefit rate but will recoup (1- Fund Percent Liability) from the insurance company. For payment types "Reimbursement" and "Direct Pay", we have assumed the weekly benefit rate as stated
 - 4. Injury Date: If the injury date is before October 26, 1987, we have assumed that the spouse will receive 100% of the benefit after the death of the claimant. Subsequent to October 26, 1987 we have assumed that the continuation of benefits is only 50% of the benefit after the death of the claimant.
- II. UEF monthly payment file
 - A. Includes monthly payments from July of 2023 through June of 2024 and includes the following splits:
 - 1. Bi-Weekly Income Benefits

- 2. Awards
- 3. Medical & Litigation Expenses
- 4. Collections Subrogation and recoveries from uninsured employers.
- B. Filename: "FYE 24 UEF AUDITORS REPORT.xlsx" Tab "#2 -FY24 UEF MONTHLY"
- III. CCMSI Claims Run
 - A. Detail Claims run of all CCMSI claims. CCMSI administer some of the more severe claims mostly to get access to medical discounts. Fields include:
 - 1. Date of Loss
 - 2. Date of Birth
 - 3. Gender
 - 4. Paid to Date
 - 5. Case Reserve.
 - B. Filename: "FYE 24 UEF AUDITORS REPORT.xlsx" Tab "CLAIMANT CCMSI PMT THRU 7-11-24"
- IV. Financial Statements
 - A. We were provided the financial statements that detailed the revenue, expenses, assets, and liabilities for fiscal year 2024.
 - B. Filename: "12 BS & IS KWCFC 6-30-24 with Blue Entries.xlsx"
- V. Statewide insurer workers' compensation premiums and assessments
 - A. Includes amounts from 2001 through the 2nd Quarter of 2024
 - B. Filename: "Summary of Premium and Asmt 2001 thru 2024 2nd qtr.xlsx"
- VI. Investment Information
 - A. File received from Conning showing the future payout of the current fixed income assets by month and adjusted book value by month
 - B. Reinvestment yield of 5.00%
 - C. Filename: "KYWCFC SPECIAL FUND CASHFLOW_RUNOFF_MONTHLY W CASH AND PREF EQUITY TOTAL BOOK VALUE 9.3.2024.xlsm"
 - D. Filename: "KYWCFC Special Fund Reinvestment Yield Analysis 9.3.2024.xls"
- VII. UEF Settlement / Administrative Expenses
 - A. Includes detail breakdown of the annual administration costs to run the UEF
 - B. Filename: "#3 -FY24 UEF ADMIN COSTS.xlsx" Tab "#3 -FY23 UEF ADMIN COSTS"
- VIII. Annual historical rate changes provided by the National Council on Compensation Insurance.

OVERVIEW OF ANALYSIS

This section describes the assumptions, approach, and methodologies used to estimate the unpaid claims and estimates of future revenue and expenses used in the projection of the future financial results.

Annual Benefit Increase

In the Commonwealth of Kentucky, the SF does not pay cost-of-living adjustments. Therefore, annual wage increases do not have an effect on the SF except as it relates to the UEF. Because the UEF is not in runoff and accepts new claims each year, these new claim's benefits change and are influenced by changes in the Commonwealth's average weekly wage, often referred to as the State Average Weekly Wage in workers' compensation. This assumption is important when selecting the loss trend for the UEF and for projecting future workers' compensation premiums.

As can be seen, over the past few years the annual benefit increase has been elevated. The latest five-year history has averaged 5.18% annually. The long-term average (20-year average) benefit increase has been 3.20%. An increase of 3.36% in 2025 was provided to us by the Commonwealth's economist. Based on the long-term average, we have assumed increases of 3.5% annually for 2026 and subsequent. Details of the historical wages are shown on Exhibit 12.

UEF Loss Trend

We have used the historical payment information to review the trend in losses and to inform our assumption of loss trend into the future. The loss trend assumption is used to estimate future UEF claim incurred losses, on-level historical UEF payments, and is also used in the estimate of future workers' compensation premiums. Below is a table that shows the historical UEF payments and annual changes in those payments.

As can be seen, the annual loss trend has had periods of significant loss trend and other periods of relatively low loss trend. Year to year volatility is also somewhat high. For example, loss trend from 1998-2009 averages 6.8% per year while loss trend from 2010-2024 averages only 0.8% per year. The loss trend for the periods from 1998 to 2024 combined averages 2.4% per year.

Based on this analysis and our opinion that future average annual loss trends will be higher than the long-term historical average, we have selected our future annual loss trends to be 3.5% for fiscal years 2025 and subsequent. Details of the historical patterns are shown on Exhibit 9. These loss trends are on top of the benefit level adjustment factors for legislative / statutory changes to workers' compensation benefits and are provided by the NCCI for Kentucky. These adjustment factors are calculated on Exhibit 11.

UEF Payment Patterns (Loss Development Factors)

Critical to the analysis and projections of the UEF is the selection of the payment pattern. The claims data provided for the UEF is limited which makes it impossible to base the UEF projections on patterns based on its own historical data. Therefore, we have estimated loss development factors based on Kentucky insurance industry workers' compensation payment patterns provided by the NCCI and benchmark patterns from other Deloitte Consulting UEF clients.

Uninsured claims in most states have much longer payment patterns than general insurance payment patterns. This is the case for two reasons. First, there is a longer reporting lag for uninsured claims as they work their way through the legal system versus insured workers' compensation claims that are generally reported very quickly. We understand this lag could be as much as two years. Second, the size and

complexity of uninsured claims is generally much larger and severe than general workers' compensation claims.

In order to estimate a payment pattern for the UEF in Kentucky we compare the NCCI payment pattern for our benchmark states to the payment pattern of UEF claims in those states. The difference from our benchmark states is than applied to the Kentucky NCCI payment pattern to produce a Kentucky UEF payment pattern. Details of this calculation are shown on Exhibit 10.

Special Fund assumptions and methodology

To estimate the unpaid claims for the 3,840 open claims as of June 30, 2024, we relied upon information such as age, gender, marital status, monthly benefits, projected changes in benefits, start dates, end dates, etc. for each claimant in the SF. Based on this information we estimated future benefit payments and discounted these payments for interest and survivorship to estimate the actuarial present value of future payments for each claimant. For interest discounts, the Commission requested that we use an annual interest rate of 3.00%. For survivorship, we used the 2007 US Life Table for mortality rates.

The SF has been in run-off for many years and has not received any IBNR claims for many years. Therefore, we have not included a provision for IBNR in our analysis.

Uninsured Employers' Fund assumptions and methodology

As mentioned previously, the claims data provided for the UEF were limited and only consisted of total payments by fiscal calendar year and did not include the payments by fiscal accident year. Therefore, we used assumptions including loss trend, wage, and the payment patterns to allocate the fiscal calendar year payments to fiscal accident year. These allocated fiscal accident year payments are cumulated to come up with cumulative loss payments by fiscal accident year. The selected payment pattern was then used to estimate the unpaid portion of each fiscal accident year. This analysis is performed on Exhibit 7 and Exhibit 8.

We received details on certain large or catastrophic claims which generally are receiving lifetime medical and indemnity benefits to a certain date. Based on this information, we estimate the unpaid associated with these claims using a mortality annuity approach. These amounts are estimated on Exhibit 6 and added to the unpaid amounts estimated on Exhibit 7. The projected payout of these amounts used for financial statement purposes and discounting is performed on Exhibit 4.

Incurred losses for future years reviews the on-level historical costs per wages and projects forward a cost per wage based on the loss trend and wage trend assumptions discussed above. This analysis is performed on Exhibit 5. The projected payout of these amounts used for financial statement purposes is performed on Exhibit 4.

Unpaid Loss Adjustment Expenses (LAE)

In order to perform the estimate of settlement expenses or LAE, we have relied on a ratio of annual administrative expense to annual loss payments and have assumed that half of the administration expenses relate specifically to claim expenses. This ratio is 2.7% for the SF and 6.0% for the UEF. The ratio is applied to the unpaid loss amounts to estimate the unpaid LAE.

Special Fund Administration Expenses

The SF pays the administration expenses for each of the funds which include the payroll, operating, and investment expenses of each fund. The SF also pays the administration expenses of the Labor Cabinet. These annual administration expenses, when adjusted for inflation, have been relatively consistent year over year. We do believe that these expenses may grow at a higher rate than they have historically for the next few years to keep up with inflation. Therefore, we have assumed that the on-level average administration expenses will grow 4.5% in fiscal year 2025, 3.5% for fiscal years 2026 and beyond. We have also been informed that the Labor Cabinet administration (indirect) expenses will increase a total of \$3.5 million in fiscal year 2022 and have included this additional provision the historical annual costs for fiscal years 2021 and prior to select the averages historical rate. Historical administration expenses and our final selections are shown on Exhibit 3. These selections are used in our projection of future financial results.

Investment Revenue

We understand that the invested assets of the SF are largely held in fixed-income securities with scheduled maturity values. Thus, Conning was able to provide the maturity values and timing of the invested funds. We assumed that no invested assets will be sold prior to maturity of the investment. Conning also provided reinvestment assumptions for the assets after the SF reaches maturity with its current profile of investments with the long-term reinvestment rate set at 5.00%.

ESTIMATE OF FUTURE REVENUE AND EXPENSES

The revenue and expense cash flows consist of the following components and the results of these projections are shown on Exhibit 1:

- Revenue: Premium revenues from the selected assessment rate applied to projected workers' compensation premiums
- 2. Revenue: Investment Income
- 3. Revenue: Assessment Penalty and Interest. These amounts have been approximately 1.33% of premium revenues
- 4. Revenue: Audit Reimbursement. These amounts have been approximately 0.46% of premium revenues
- 5. Expense: SF claim payments
- 6. Expense: UEF claim payments
- 7. Expense: Administrative expenses.

OTHER CONSIDERATIONS

The estimates of the SF unpaid claims rely in part on the benefit amounts paid to the claimants. We have relied on the benefit payment information given to us by KWCFC. We have not verified whether the benefits paid to the claimants are in accordance with the applicable law. Based on our review of the pay schedule provided for SF claims, most of the payment start dates, payment end dates, and benefit amounts already reflect the method, timing, and amount of the attorney recoupment fees. To the extent that these fees are not reflected in the database for certain records, our results may be conservative. For example, if there was no end date in the database, we have assumed that payments continue for the life of the claimant.

DISCOUNTING

The Commission's selected annual interest rate of 3.00% was used to estimate discounted unpaid claims. In our discount calculation, we assume that interest payments will be made in the middle of each successive development period.

VI. DISCLOSURES

The following disclosures are applicable to our analysis of the Entity's unpaid claims as of June 30, 2024:

ASOP 43

Actuarial Standard of Practice No. 43: "Property/Casualty Unpaid Claim Estimates" requires certain disclosures to accompany actuarial estimates of unpaid claims.

- Terminology: The terms "Unpaid Loss & LAE Estimates", "Estimates of Unpaid Claims", and
 "Unpaid Claim Estimates" are used interchangeably and are meant to convey the same meaning.
 The term "Reserve" is limited to its strict definition as an amount recorded in financial
 statements.
- Purpose or Use of the Unpaid Claim Estimates: The purpose of the unpaid claim estimates is to provide the Commission with an independent analysis and estimates of unpaid loss and LAE.
- Scope of the Unpaid Claim Estimates: The intended measure of the unpaid claim estimates
 provided is an actuarial central estimate (an estimate that represents an expected value over the
 range of reasonably likely outcomes). Our estimates are shown on both an undiscounted and a
 discounted basis.
- Constraints on the Unpaid Claim Estimates: There were certain constraints in the performance of this actuarial analysis. These constraints stem from substantial uncertainties in estimating the loss and LAE for unpaid claims. Examples include but are not limited to the rate of inflation inherent in losses during observable development periods, the projected development for losses as they age beyond the observable development periods, changes in full and final settlement practices, and the inherent variability in losses over time.
- Uncertainty and Range: We have not attempted to measure the uncertainty in the estimates.
- Applicable Dates: These unpaid claim estimates as of June 30, 2024 were based on loss, premium, and exposure data evaluated as of June 30, 2024, and additional information provided to us through September 25, 2024.

 Documentation: This report, along with the accompanying exhibits, provides documentation supporting our unpaid claim estimates as of June 30, 2024.

ASOP 36

Actuarial Standard of Practice No. 36: "Statements of Actuarial Opinion Regarding Property/Casualty Loss and Loss Adjustment Expense Reserves" provides certain guidance to the actuary in issuing written statements of actuarial opinion regarding property/casualty loss and loss adjustment expenses.

- Stated Basis of Unpaid Claim Estimate Presentation: The unpaid claim estimates quoted in this report are for the earned exposures from all workers' compensation exposures and other unpaid claims assumed by the SF. These unpaid claim estimates were stated on an undiscounted and discounted basis, and do not include an explicit risk margin. The basis of the reserves considered in the Statement of Actuarial Opinion was selected on the basis of U.S. Government Accounting Standards Board (GASB).
- Reserve Evaluation: The basis of the evaluation used in this report and in the Statement of
 Actuarial Opinion was that the reserve is considered to be reasonable if it is within a range of
 estimates that could be produced by an unpaid claim estimate analysis that is, in the actuary's
 professional judgment, consistent with both ASOP No. 43, Property/Casualty Unpaid Claim
 Estimates, and the stated basis of unpaid claim estimate presentation.
- Adverse Deviation: In this report and Statement of Actuarial Opinion, significant risks and
 uncertainties have been considered that could result in future claim payments being materially
 greater than the total amount provided for the reserves.
- **Statement of Actuarial Opinion**: The Statement of Actuarial Opinion is included the text of this report.
- Adequacy of Assets Supporting Reserves: We have not undertaken an evaluation of the adequacy
 of the assets supporting the stated reserves.

ASOP 56

Actuarial Standard of Practice No. 56: "Modeling" requires disclosure of certain information regarding the actuary's use of models. For this valuation, the unpaid claim estimate calculations were determined using

Microsoft Excel based reserving models developed and maintained internally by Deloitte Consulting. The model was designed specifically for the measurement of property & casualty unpaid claim estimates and the actuary has updated the applicable parameters for the specific coverages reviewed and assumptions selected for this valuation.

ASOP 20

Actuarial Standard of Practice No. 20: "Discounting of Property/Casualty Claim Estimates" applies to actuaries when performing actuarial services that involve the discounting of claim estimates for property/casualty coverages to a present value. The standard also requires disclosure of certain information regarding the actuary's use of discounting.

The intended purpose of the discounted estimates is to provide the Commission with perspective on the impact of the time value of money on the estimates at the annual interest rate provided and used for discounting.

The Commission's selected annual interest rate of 3.0% was used to estimate discounted unpaid claims as of June 30, 2024. Our estimates do not include an explicit risk margin. We believe that the selected rate of 3.0% is reasonable based on the duration of the unpaid claim estimates of 10 years and the Treasury risk-free returns of 4.22% for 10-year maturities as of the June 30, 2024. While the rate selected by the Commission is lower than the referenced rates, an explicit risk margin beyond what is implicit in the referenced rates may be appropriate to consider the inherent uncertainty in the timing and amount of payments underlying the estimates of unpaid claims.

In our discount calculation, we assume that interest payments will be made in the middle of each successive development period and that the selected payment patterns will apply in the future. The paid development patterns used are based upon the patterns produced by our analysis of the supporting data.

The amount of the discount is \$121.3. Based on our analysis, we believe that the discounting has a material effect on the results of the reserve evaluation.
